Education

Sanjivani University		2027
<i>B.Tech in Artificial Intelligence and Data Science</i>	<i>CGPA: 7.78/10</i>	<i>Kopargaon, India</i>
Sanjivani K.B.P Polytechnic		2024
<i>Diploma in Computer Technology</i>	<i>Grade: 78.17%</i>	<i>Kopargaon, India</i>
Shri Navnath Vidyalaya		2021
<i>HSC</i>	<i>Grade: 76.33%</i>	<i>Karanji, Ahilyanagar</i>
Bhagwan Baba High School		2019
<i>SSC</i>	<i>Grade: 73.00%</i>	<i>Nevasa, Ahilyanagar</i>

Skills

Programming Skills: Python, Java, JavaScript, HTML5, CSS3, SQL, REST APIs, Machine Learning, Deep Learning, Data Analytics

Tools & Platforms: Git, GitHub, Docker, Jenkins, Firebase, MongoDB, Google Cloud Run, CI/CD, IBM Cognos, IBM SPSS, Jira, VS Code, Google Colab, Arduino, ESP32, IoT Sensors, Embedded Systems

Projects

PulseRx – AI Powered Medicine Delivery & Healthcare Management System

- Developed a full-stack AI-powered medicine delivery and healthcare management platform with secure authentication, role-based dashboards, order tracking, and prescription management using HTML, CSS, JavaScript, Node.js, Express.js, and Firebase.
- Implemented cloud-based deployment and automation using Docker, GitHub Actions, Google Cloud Run, and CI/CD pipelines for scalable and reliable application delivery.
- Built responsive UI/UX modules including admin panel, delivery dashboard, live tracking, and AI prescription scanner with secure JWT authentication and Firestore integration.

DeepFake Recognition System

- Developed an AI-based system to detect DeepFake videos and images using deep learning techniques to improve digital security and reduce misinformation.
- Technologies Used: Python, CNN, LSTM, XceptionNet, FaceForensics++, and OpenCV.

Mood Minder – Game-Based Mood Tracking and Recommendation System

- Developed a mood tracking and recommendation platform using gameplay interactions and personalized recommendation techniques to improve emotional well-being.
- Technologies Used: Python, REST APIs, MongoDB Atlas, and Interactive User Analysis.

Certifications

IBM Certifications

- Big Data Technologies – Spark & Scala Fundamentals
- Business Intelligence
- IBM Cloud Fundamentals
- DevOps Fundamentals
- Predictive Modeling with IBM SPSS Modeler

NPTEL Certification

- Learning Analytics Tools
